

# Savior

Iggy Azalea

Been around the world and I, I, I  
I can't find my baby  
Things gettin' crazy  
Losin' my patience  
Why you keep me waitin'  
Goin' through the phases  
Got me walkin' out the house all done up  
Just in case I see your face and you decide to run up  
Yea I'm in a different place, I need someone to hold on to  
I been sendin' up a prayer hope the call gets through

Cause my heart beats for you only  
I wonder if you even know me  
Countin' down every moment  
That I wait for ya, I wait for ya  
I wonder if you even notice  
Lately I've been feelin' hopeless  
Easy to lose focus, but I'll wait for ya...

I've been looking for a savior  
I've been looking for a savior  
I've been looking for a hero in my corner  
I've been looking for a savior  
A savior, to save me...

(I've been looking for a savior  
A savior, to save me...)

I feel like God playin' tricks on me, got a fix on me  
Feel the weight of the world like I got a brick on me  
Had a dance with the devil and he got a grip on me  
I'm just tryna get to heaven, hope you got a ticket for me, uh  
If I'm Lois Lane, where's my Superman?  
I need you faster than a bullet or a speedin' train  
And when you find your way to me then I won't need a thing  
And I can't wait until the day that we can meet again

Cause my heart beats for you only  
I wonder if you even know me  
Countin' down every moment  
That I wait for ya, I wait for ya  
I wonder if you even notice  
Lately I've been feelin' hopeless  
Easy to lose focus, but I'll wait for ya...

I've been looking for a savior  
I've been looking for a savior  
I've been looking for a hero in my corner  
I've been looking for a savior  
A savior, to save me...

Saving my love for you, saving my love for you  
Saving it, saving it all for you  
Saving it all for you, all for you  
Saving my love for you, saving my love for you  
Saving it, saving it all for you, saving it all for you

I've been looking for a savior  
I've been looking for a savior  
I've been looking for a hero in my corner  
I've been looking for a savior  
A savior, to save me...

(I've been looking for a savior  
A savior, to save me...)
