Education without action does nothing Bulldozers broken down
Destruction takes the day off
Tank is filled with dirt
Land locked and monkeywrenched

I've damaged
I've damaged
No compromise in defense
I've damaged

Another money day Clearcut jobs they pay well Ecosystems gone Developers go build in hell

In defense
I've damaged
To preserve

The land is seen as cohmodity
Most revered end is money
Esthetics pass for just scenery
Most damage done in this century

We break the branches of the diversity tree To get its fruit But next year your children's yield won't be half as good
