

You

Ignite

i wrap my hopes in you
i'm all in this my self
this is a chance i have to take
i'm all in this by my self

it's a chance i have to take
but this now time i have to break
i can't last another round
and this time you've knocked me...
out

i wrap my world in you
all you can think is yourself
this is a time i have to leave
i'm in this by my self

i wrap my hopes in you
i'm all in this my self
this is a chance i have to take
i'm all in this by myself

i build my hopes you bring me...
down!
