

# No Sanctuary

Ignitor

My reason for living  
Questioned by the minute  
Emotional distortion leads me to ruin  
The path I take, it may be of a cynic  
Decisions made, befriending my doom  
Waking moments of clarity being the truth  
I do not recognize the voices  
Who are these faces... in the room  
Is it I who made these destructive choices

As I notice the blood at my feet  
Will my eyes and the victims ever meet  
As I leave a trail of death  
I will be shunned  
As I lived I will die, what have I done

No sanctuary  
No sanctuary for you  
Sanctuary  
For all the evil you do, no  
Sanctuary  
No sanctuary is true  
Sanctuary  
And no escape for you

The power is breaking  
My soul they are taking  
I have no blood no breath  
I give into pain  
The sun has forgot  
Of my black evil spark  
The king will wear my hide as his mane

The lords of chaos strike me down  
My timid soul  
As I go blind I reach the end to pay the toll  
The eyes of unknown riders  
Leather horses run me through  
Angels lay the path and do the demons due

No sanctuary  
No sanctuary for you  
Sanctuary  
For all the evil you do, no  
Sanctuary  
No sanctuary is true  
Sanctuary  
And no escape for you
