

Tonight We Ride

Ignitor

Let me loose, destroy daylight
This is the night for many travels abound
With a speeding sound, louder for all
Crashing through the galaxy beyond, oh yeah

We don't really wanna know
What lies ahead, no
Doesn't really matter
If we make it nowhere and back
Our ship is set to blaze many planets unknown

Into the night we ride
Piercing the heavens, passing the stars
Make ourselves known from saturn to mars
Into the night we ride

Searchin' for sites beyond
Your wildest dreams
Made it real not fantasy, or so it seems
Gonna swim in the sea of tranquility
Yeah, maybe get lucky an
Meet the space queen

We don't really wanna know
What lies ahead, no
Doesn't really matter
If we make it nowhere and back
Our ship is set to blaze many planets unknown

Into the night we ride
Piercing the heavens, passing the stars
Make ourselves known from saturn to mars
Into the night we ride
