## **Lend A Hand**

## Ijahman Levi

If you should see me Action like a child Back to the age When I was nine Please come on And lend a hand

If I to free to see What really lies
Ahead of me
With some love
Just lend a hand

Lend a hand
To get myself together
Lend a hand
To make life a little easier
Lend a hand
If I'm still green
Still living in my world of dreams
With some love lend a hand

As much as I a grown up man
Daily living some times get heavy
Please hold me on oh Lord
With a helping hand
If I'm looking cold and weary
Rag clothing covering me
With some love come on lend a hand
