

Evil Man

Ike & Tina Turner

I see that evil look that's in your eyes
You've been fillin' me all full of lies
My whole world has changed the way you feel
She will have to bear your fertile seed

Evil man, don't play your games with me
Evil man, don't play your games with me

Now I know just what you're lookin' for
You want her to have the child you bore
Now I know that it was she not me
And you know just how it's got to be

Evil man, don't play your games with me
Evil man, don't play your games with

Evil man, don't play your games with me
Evil man, don't play your games with me

Now wickedness lies in the moistened lips
My body moves just like you snap a whip
As though you see me in the satin bed
What you're thinkin' is in your evil head

Evil man, don't play your games with me
Evil man, don't play your games with me
Evil man, don't play your games with me
