

# Cold Water

lko

And the cold water comes like love  
And the cold water comes like love does  
And the cold water comes like love  
Overwhelming

And the cold water comes like love  
And the cold water comes like love does  
And the cold water comes like love  
Overwhelming

I would  
Trade it all in for one more moment  
I've been wandering  
Around the things you left in the way

Take the heartache out of me  
Take the heartache out of me  
Replace it with something new  
Something that's made by you

Take the heartache out of me  
Take the heartache out of me  
Replace it with something new  
Something that's made by you

And the cold water comes like love  
And the cold water comes like love does  
And the cold water comes like love  
Overwhelming

And the cold water comes like love  
And the cold water comes like love does  
And the cold water comes like love  
Overwhelming

This nervous thing  
Comes like a flood  
And takes all that you've done

When the [?] you feel  
I don't see me drownin' any day soon  
'Cause I wait in the fiery house  
I wait in the fiery house  
And cold water comes like love  
To piece together what we were

If you are the time holder  
Hold it together as hard as you can

And the cold water comes like love  
And the cold water comes like love does  
And the cold water comes like love  
Overwhelming

And the cold water comes like love  
And the cold water comes like love does  
And the cold water comes like love

Overwhelming
