Alien

ILIRA

No, you don't need to run, run, run like I'm crazy
Oh, you don't need to run, I'm coming in peace

It's like
When I show up they all start running
Oh, and I don't know what's happening
Nothing like you've ever seen, oh, I guess my blood is green
And I never found my place to be

Can't believe it
I'm only lonely when I'm breathing (Oh)
I'm nothing like you've ever seen, oh, I guess my blood is green
And I never found my place to be

No, you don't need to run, run, run like I'm crazy
Oh, you don't need to run, I'm coming in peace
And all I need is someone ready to save me
'Cause I just need an alien, an alien like me

There ain't nobody on my radar (Oh, oh-oh)
And I'm just hanging from a star
I don't know where I belong or what planet am I from
I can never seem to find the one

Can't believe it
I'm only lonely when I'm breathing (Oh)
I don't know where I belong or what planet am I from
I can never seem to find the one

No, you don't need to run, run, run like I'm crazy
Oh, you don't need to run, I'm coming in peace
And all I need is someone ready to save me
'Cause I just need an alien, an alien like me

No, you don't need to run, run, run like I'm crazy

And all I need is someone ready to save me
'Cause I just need an (Alien, an alien like me)
