

## Easy

ILIRA

I've been in the dark  
Cause I love too hard  
Now with you it's finally easy

One touch  
I'm caught up in a vision  
Can't get enough  
Can't get enough  
No rush  
You're always here to listen  
Can't get enough  
You make it feel so easy

I've been in the dark  
Cause I love too hard  
Now with you it's finally easy  
Never came too far  
Got a heavy heart  
Now with you it's finally easy

I've been in the dark  
You get it right  
Never came too far  
You get it right  
I've been in the dark  
Cause I love too hard  
Now with you it's finally easy

All night  
You're wrapped around my body  
Just love me right  
Just love me right  
Sometimes  
I'm needy and I'm sorry  
You get it right  
You make it feel so easy

I've been in the dark  
Cause I love too hard  
Now with you it's finally easy  
Never came too far  
Got a heavy heart  
Now with you it's finally easy

I've been in the dark  
You get it right  
Never came too far  
You get it right  
I've been in the dark  
Cause I love too hard  
Now with you it's finally easy

Maybe heaven's not a place  
It's the way you keep me safe  
When my life goes up in flames  
You just carry me away  
You make it feel so easy

I've been in the dark  
Cause I love too hard  
Now with you it's finally easy  
Never came too far  
Got a heavy heart  
Now with you it's finally easy

I've been in the dark  
You get it right  
Never came too far  
You get it right  
I've been in the dark  
Cause I love too hard  
Now with you it's finally easy

I've been in the dark  
Cause I love too hard  
Now with you it's finally easy
