

New Friend

ILIRA

Some days I'm so high, I'm high for two
Some days I wanna die out of the blue
But now the music's gone, too tired to fake it all
I need my senses numbed

Some say they see me in the night
Dancin' on tables alone
But they can't see her by my side
She sang herself into my mind

'Cause I've got a new friend
She makes me believe, ah-ah
'Cause I've got a new friend
She makes me believe, ah-ah

She whispers in my ear, "Take my magic pill"
Make it disappear, feelin' the thrill
What are you waitin' for? Run like a white horse
Baby, you gotta break

Some say they see me in the night
Dancin' on tables alone
But they can't see her by my side
She sang herself into my mind

'Cause I've got a new friend
She makes me believe, ah-ah
'Cause I've got a new friend
She makes me believe, ah-ah

Everythin' she says up in my head
Blowin' smoke rings in my face
Whippin' her hair, she's got
My heart between her teeth
My heart between her teeth
I lock the door, swallow the key
She's gonna find her way to me
I bang my head against the wall
Is there a way to end it all?

'Cause I've got a new friend
She makes me believe, ah-ah
'Cause I've got a new friend
She makes me believe, ah-ah
