

## DINNER PLATE

III Bill

Yo! We watch empires disintegrate  
Bring me Medusa's head on a dinner plate  
We watch palaces burn  
And either they caskets get turned to ashes or urns, word  
We watch empires disintegrate  
Bring me Medusa's head on a dinner plate

You talkin' to pigs like Ramzi Yousef  
And he punch you smashing bricks like a Suplex  
Fuck sleepin' where the food kept  
A Chevy Dually over your head, magic when I two-step  
Ash your blunts out the moon deck  
My crew is lookin' for who's next  
Crip walkin' on full blotters, we war mongers  
Thor's hammer, Henny blood shakes and sippin' quarts of vodka  
I'm like Latka from Taxi pickin' up papi  
Pappy Mason haircut now lookin' like Gus Farace  
Coby sweaters my builders like the Gobi Desert  
The rabbi's clean, the bullet is your only merit  
Killers like Tom Skeritt, perfect aesthetic  
Sergio Tacchini, cinderblock pot, they call me Carlo Fellini  
Set my sights, catchin' brain on transatlantic flights  
We don't pay the price, I'll pay the grand with a bag of knives  
Sellin' white to fiends, her teeth lookin' like a pair of dice  
Or a soft ice, like angels we keep it on the bikes

Yo! Stand-up guys like Carmine Ragusa  
Violate a funeral and cut out the eyes of Medusa  
Know Satanists done rise, Columbine the future  
Low maintenance crimes we drive by and shoot ya  
My silencers are bigger than your pistols  
Ultimate salesman I have you twisted into crystal  
In other words wavier than graveyard  
Brooklyn we play hard, bullet in the brain, God  
Spit fire like a Dragon but went back to heaven  
Either that or I'm holding the black MAC-11  
Sparkle in the sunshine, you don't wanna play  
Not to mention that this vodka can hit you from a block away  
ILLEST BILLEST blast with the Philly Steeler mask  
Kill 'em, kill 'em fast, soul-sinner killed the crash  
Organized crime, my pistol in the grass  
Hit 'em in they headpiece, hit 'em in their ass

We watch empires disintegrate

Kiss the chrome on my dome it's the ghetto sire  
Wipe ya whole city like a genocider  
I walk the chambers of hell to sell the Devil fire  
Facts, I highly doubt it that you want the smoke (Nah)

The fiends stay in line, shit they want this coke  
I tell 'em, where I'm from I'm the fuckin' GOAT (Ah)  
Bring the noise, I let the drum sell a hundred bolts  
Supreme overlord, still rockin' Govalo  
Captain of the 'Gnac, I throw suckers overboard  
These rats find theyselves in a cobra jaw  
The illest, I'm top two, nigga, overall (Notice)  
Machete fire like a drone, homes  
Choppin' niggas up 'til they bones show  
Four of the best cheffin' up like a dope dealer  
Rec, Lord Goat, JR, and the Cult Leader, ah

I got my groove back moving packs where they shoot at  
Side orders for the high water like some new slacks  
True facts new jacks get tossed off the side of bridges  
I got 'em with me tucked inside my breeches  
Niggas can start beef and trigger my clique  
I be in the Marquees, in a heartbeat  
Sucker-punch your fronts into bars teeth  
Top rhymer, spark support like a Rottweiler  
Megatron quick to flex the arms like Scott Steiner  
Big popper pump blicks out the trunk  
The .40 Cal growl, empty clips when I dump  
Hardest in the block, no we supplied it by spinning block  
And the dots cover your body like it was chicken pox  
Whole team comin' gunnin'-runnin' ya jaw bone  
Same shit we pumpin', niggas dumpin' in Raw cones  
Pitbull trait, catch a razor to the face  
Catch me movin' up and down the interstate tuckin' dinner plates
