

## Final Scene's Mine

### III Bill

And so another adventure begins  
Ski slopes, skis, automatic weapons  
Downhill shootout with Bill, they out for vengeance  
Those two brothers  
The same two motherfuckers I mentioned In Swordfish  
Yeah, Isaac and Ish  
Ishmael is shit backwards and Isaac's a bitch  
I'mma kill 'em both and still be left with five in the clip  
These people invented and injected they mind with a chip  
They shot and missed, almost skiing off the side of the cliff  
You know I shot back, Isaac was hit  
A bullet ricochet off of his hip  
Hit his brother Ish in the lip  
An avalanche final finished they trip  
Afterwards I had a ski bunny sucking me off up in the lift  
Fucking me off up in the whip, dusting the dips  
See me arriving by the hollow tunnel puffing a spliff  
Put a hollow tip shell in my shit  
Mind full of evil thoughts and my enemy's bitch

I murdered the beast with the six-fingered hand  
Head of a goat, seven horns  
Seven red bloodshot eyeballs that glow  
What do y'all know?  
You can practically taste the brain matter  
It splatters cameras, The Final Scene

I laugh and spit in the face of death, load 'em with lead  
Go to the sunset on a black horse, holding his head  
Destroyed an army closing in, it reminded me of that time in Brazil  
When my government assigned me with a license to kill  
Fresh out of CIA torture school  
Taught me the most effective ways to make prisoner of war talk to you  
From Europe to South America, bloodbaths, kidnappings  
Sounds hysterical, orgies in a mansion  
Where the Cult Leader drained warheads  
For antidotes to viruses, corporate alliances, we buying shit  
Finance security, first-world terrorism  
Combined it with religion, it's proven the best business  
Ask Osama, ask Bush, ask anybody  
Give me a Ferrari and box full of money  
A double agent with a hunger for paper  
Now run they payment with my gun in they faces

I murdered the beast with the six-fingered hand  
Head of a goat, seven horns  
Seven red bloodshot eyeballs that glow  
What do y'all know?  
You can practically taste the brain matter  
It splatters cameras, The Final Scene
