You don't like ILL BILL you can suck my dick

You don't like J Grand you can suck my dick  
Suck my dick  
Bitch, you can suck my dick!

I keeps it gully, peep the skully  
I pump you, I throw a hole through your whole shit  
I leave you looking like a blood transfusion gone bad  
With no dick, you a hoe, bitch  
The only thing you know is you don't know shit  
And that's a good thing, peep the heat the hood bring  
I be in Brooklyn and e'rybody know my crew sling  
'Nough drugs, we 'nough thugs with 'nough guns  
The only thing you faggot cats pull out is butt plugs  
I got this coke-head lesbian bitch that blow head  
That will shoot you in the dick point blank range then jet  
The gangster of love, grimy like Sanford and Sons

My magnum's a drug  
Splatter you then dance in your blood  
I bust repeatedly  
I always knew that God hated me, created me  
Threw me on a planet that's afraid of me  
My date of birth will be the day the earth learn to hate love  
At fourteen is when I first heard Reign in Blood  
At fifteen is when I first start to play with guns  
At seventeen I ate my first blunt laced with dust  
At twenty-one I shot Reagan and made the paper, son  
My life is Non Phixion, sex, drugs and laser guns  
Love junkie drug producer, I fucked Medusa plus her two sisters  
My clique is murderous, your crew's bitches  
Confused victims walk around wounded and oozing liquids  
Shoot you then threw the biscuit in the dumpster  
Flew to Kingston  
I fucked Halle Berry in the bathroom during the Grammy's  
Then ate Romanian steak at Sammy's  
We rhyme like we never got paid yet, I face debts smiling  
I die in a shootout with eight vets  
Mr. ILL BILL assassinate character witnesses in courtrooms  
In front of the judge and jury and their kids  
I'm like the side of the Force that the righteous man walks  
With a big pistol cocked the fuck back when I talk  
Motherfuckers!
