

El Niño

III Niño

As we appose on life, well stand aside,
Cause I thought its not right, can el niño
Make more reasons forced aside
Yes we can be, Don't you understand we're true latino bred,
Where that shit rolled us, this competition rolling over

Listen to what I teach, cause I don't like to preach
Listen to what I teach, cause I don't like to preach

El niño, el niño, el niño, turn it up
El niño, el niño, el niño, no stopping us

So what to do, when el niño come for you
Storming through, with mercury of power, so much fucking power
No bringing us to justice, wrecking anyone who confronts us
Bitch, you couldn't take our special forces

Listen to what I teach, cause I don't like to preach
Listen to what I teach, cause I don't like to preach

El niño, el niño, el niño, turn it up
El niño, el niño, el niño, no stopping us

It's in your face
One, two, three, four, right

El niño
El fucking niño
