

# God Save Us

III Niño

God save us  
This new life has brought us this new knife  
It's worthless and mindless to preach I  
Resist that!

Yeah right!

God save us  
This new life has brought us this new knife  
It's worthless and mindless to preach I  
Resist that!

Liar!

I am what you despise  
I am just a disgrace you will never embrace  
The strength will rise  
Everything that I do burns against you  
These words are just a speck  
In what you call my life's wreck  
Mistakes forsake and every word will break

This is hard to believe  
I am not what you see  
All the pressure is breaking down on me  
I will take what is mine  
And won't waste any time  
Don't believe in what you want for me

God save us  
El control has brought us  
El color de sangre y hambre  
It's our turn  
We will burn!

Liar!

This life is mine  
My intentions are real, this is my killing field  
I will not shine  
Our souls turn to rust, turn our bodies to dust  
My life is just a trek  
In what you call my last breath  
Mistakes forsake  
Then every word will break

This is hard to believe  
I am not what you see  
All the pressure is breaking down on me  
I will take what is mine  
And won't waste any time  
Don't believe in what you want for me

This is hard to believe  
All the pressure is breaking down on me  
I will take what is mine  
Don't believe in what you want for me

God save our souls, yeah  
God save our souls

God save us!  
This new life has brought us this new knife  
Tu control  
Tu color  
It's our turn  
We will burn!!

Liar!

I am what you despise  
How can I be oppressed and then confess?  
The strength will rise  
Everything that I do burns against you  
These words are just a speck  
In what you call my life's wreck  
Mistakes forsake  
Then every word will  
Break!

God save us  
This new life has brought us this new knife!
