I cannot justify your envy
But I will be understanding when you stay
Then I will satisfy you in every (way)
But I'm not feeling coherent when you say

Again

Though I'm right, I don't think I'll win this fight But I'm trying though it's ripping me inside Just in case that I'm taking up your space I'll be feeling too, whatever's left inside

When it cuts, it cuts, it cuts hard
And I
When it cuts, it cuts, it cuts hard
And I
When it cuts, it cuts, it cuts hard
And I
When it cuts, it cuts, it cuts hard
And I
When it cuts, it cuts, it cuts hard
And I die again

I can't go on
I'm not that strong
I'm so alone
You just gotta set me free

I'm still living day, no way I don't care what you say Your eyes dispise my lies Just say goodbye

When it cuts, it cuts, it cuts hard And I
When it cuts, it cuts, it cuts hard And I
When it cuts, it cuts, it cuts hard And I
When it cuts, it cuts, it cuts hard And I
When it cuts, it cuts, it cuts hard And I die again

Again, again

Waste your breath
