

World So Cold

III Niño

Hey, talking to you
Take it from me
Nothing to see
You're not that cool
I, something to say
Nothing to see
Where have you been?
Reality

You fucking listen when I'm talking to you
You think you're tough but I've got nothing to loose
Go so far, how far can you go
It's over
It's over
It's over
It's over

How can it be this world's so cold?
Run away, get away, all the way
How can this world feel so alone?
Run away, stay away, fade away
How can this cage be all my own?
Run away, get away, all the way
How have I made this hell my home?
Run away, stay away, fade away

Stay, part of the scene
Follow the green
You're not a fool
Dropped out of school
Fight, why do you fight?
Why do you scream?
What does it mean?
Reality

You fucking listen when I'm talking to you
You think you're tough but I've got nothing to loose
Go so far, how far can you go?
It's over
It's over
It's over
It's over

How can it be this world's so cold?
Run away, get away, all the way
How can this world feel so alone?
Run away, stay away, fade away
How can this cage be all my own?
Run away, get away, all the way
How have I made this hell my home?
Run away, stay away, fade away

There's nothing more to say
There's nothing more to say
There's nothing more
There's nothing more to say

How can it be this world's so cold?
Run away, get away, all the way
How can this world feel so alone?
Run away, stay away, fade away
How can this cage be all my own?
Run away, get away, all the way
How have I made this hell my home?
Run away, stay away

Te hablo a ti
Te hablo a ti
Te hablo a ti
