

## She Knows

Illdisposed

She knows  
And she's out to get me  
The one - I did betray  
She's now a foe

The Trust  
Is but a memory apart  
The way I spend my time  
I lack control

She Knows  
And she prepares to see me off  
To a place where I lie no more  
With a bitter thought I realise  
I brought this on myself  
...She knows

She knows  
But she can still not look at Me  
And think that I am more than dirt to her

This place  
It's getting harder every day  
I dream of you at night
