

## Tugging At Your Heart

Illdisposed

For nothing at all  
I will join in your life  
Put together the pieces  
You have puzzling my mind

I drink to your soul  
I live in the night  
An essence of evil  
Preparing to fight

So let go  
Feel the way we move  
Tugging at your heart  
Like I always do

To be at my will  
Not feeling so tall  
Defining the way  
Avoiding to fall

Sentence the dead  
To stay in the dark  
You need to accept  
And carry the mark

So let go  
Feel the way we move  
Tugging at your heart  
Like I always do

My final goal  
Not to go back  
The mind of a fool  
Racing in my head

So let go  
Feel the way we move  
Tugging at your heart  
Like I always do
