

## Feel Good

Illenium

Yeah, I doubt, I doubt myself  
And I'm too proud to ask for help  
When you see me beside myself  
I don't have to explain it, baby  
Yeah, I'm over picking fights  
And trying to mend it with the high  
Don't wanna know that I'm not right  
I know that I've been lately, lately

Yeah, sometimes I need someone to pick me up  
Overdose my mind with the things I love  
You can take me there  
When my heart beats, when my heart beats free

Take my hand in the middle of a crisis  
Pull me close, show me, baby, where the light is  
I was scared of a heart I couldn't silence  
But you make me, you make me feel good, I like it

Take my hand in the middle of a crisis  
Pull me close, show me, baby, where the light is  
I was scared of a heart I couldn't silence  
But you make me, you make me feel good, I like it

But you make me, you make me feel good

Yeah, I get over-overwhelmed  
When all these problems burn like hell  
Maybe I just need a friend  
Who never calls me crazy, crazy

You pull me off the front line before I run  
Keep me cool, but not get overdone  
You can take me there  
When my heart speaks, when my heart speaks free

Take my hand in the middle of a crisis  
Pull me close, show me, baby, where the light is  
I was scared of a heart I couldn't silence  
But you make me, you made me feel good, I like it

Take my hand in the middle of a crisis  
Pull me close, show me, baby, where the light is  
I was scared of a heart I couldn't silence  
But you make me, you made me feel good, I like it

But you make me, you make me feel good, I like it, I like it  
You make me, you make me feel good

Taking the weights off  
To help with the pressure  
And I was here stressing  
Thinking it mattered  
Been with you for hours, but it feels like seconds  
It's only moments and I'm in heaven  
It's only moments and I'm in heaven, oh

You make me feel good  
You make me feel good  
You make me, you make me feel good, I like it

Take my hand in the middle of a crisis  
Pull me close, show me, baby, where the light is  
I was scared of a heart I couldn't silence  
But you made me, you made me feel good, I like it

Na-na-na-na-na-na, oooh  
Na-na-na-na-na-na
