

# Fortress

Illenium

No light in the distance  
We were shadows holding on (Holding on)  
All the things I resisted  
Now far from gone (Far from gone)

A armor on  
You use your heart as a fortress  
Ticking bombs  
All the weapons are useless  
So can you just let down your guard  
Before everything is marred  
Armor on  
You use your heart as a fortress

How'd you get so far away from me  
How'd you get so far away from me  
How'd you get so far  
How'd you get so far away

How'd you get so far away  
You use your heart as a fortress  
You use your heart as a fortress  
You use your heart as a fortress

How'd you get so far  
How'd you get so far  
Armor on  
You use your heart as a fortress  
Ticking bombs  
All the weapons are useless

All the weapons are useless  
You use your heart as a fortress  
So can you just let down your guard  
Before everything is marred  
Armor on  
You use your heart as a fortress

You use your heart as a fortress  
You use your heart as a fortress
