

Fractures

Illenium

Burning everything I know
Desperate for a change
Crashing down the ancient roads
Past our yesterday

Maybe there is hunger in my blood
Screaming out loud for what I want
See me running full speed at it
Shattering, collide
Call it post-traumatic
Now it's do or die

Coming after tiny fractures
Coming after tiny fractures
See me running full speed at it
Coming after tiny fractures
Call me post-traumatic
What comes after, tiny fractures

Tiny fractures...

Feeding frenzy is in my brain
I'm hopeful every day
I gotta get it while we are still young enough to break
We're finally not afraid

Maybe there is hunger in my blood
Screaming out loud for what I want
See me running full speed at it
Shattering, collide
Call me post-traumatic
Now it's do or die

Coming after tiny fractures
Coming after tiny fractures
See me running full speed at it
Coming after tiny fractures
Call it post-traumatic
What comes after, tiny fractures

Tiny fractures...
