

Insanity

Illenium

Fake love and breakups are my best habit
Wake up and take something, right back at it
When you get too close, that's when I let go, yeah
If there's a whip, well, then I might crash it
If there's a hotel, then I might smash it
You get too close, that's when I let go

One hundred and twenty the pedal, I up the level
My spirit is out of my vessel, I'm off the Henno
The devil's all up in my bezel, that's heavy metal
And no one could tell me to settle, yeah, yeah

Don't jump this wave, 'cause you might drown
Don't build me up, I'll let you down
You say it's insanity, but
I say that's my life
I fill my lungs with everything
You want someone that I can't be
You say it's insanity, but
I say that's my life

I say that's my life

Woke up in your bed, don't know what happened
I lost my clothes and I ripped my jacket
You said I should pump brakes, but I can't slow down

One hundred and twenty the pedal, I up the level
My spirit is out of my vessel, I'm off the Henno
The devil's all up in my bezel, that's heavy metal
And no one could tell me to settle, yeah, yeah

Don't jump this wave, 'cause you might drown
Don't build me up, I'll let you down
You say it's insanity, but
I say that's my life
I fill my lungs with everything
You want someone that I can't be
You say it's insanity, but
I say that's my life

Insanity, insanity
Insanity, I say that's my life

Don't jump this wave, 'cause you might drown
Don't build me up, I'll let you down
You say it's insanity, but
I say that's my life

Don't jump this wave, 'cause you might drown
Don't build me up, I'll let you down
You say it's insanity, but
I say that's my life
I fill my lungs with everything
You want someone that I can't be
You say it's insanity, but
I say that's my life

Insanity, insanity
