

# Losing Patience

Illenium

I got everything I wanted and some more  
I think I was better off when I was broke  
Took my younger days for granted, now it haunts me  
I'm just tryna live and the devil keep tryna taunt me

Look, big dreams, small town, grew up too fast  
Never stopped to look around, why'd I do that?  
I know it isn't safe, I'm looking out the rear view  
Know if I don't stop it, I'ma crash but I still do

Yeah, said you wanted the change  
Said you wanted the fame  
Losing more than you gain  
All you got was some pain  
Look your younger self in the eyes  
And tell me if he wouldn't know that you been living a lie

Damn

Losing patience  
I've been waiting  
For something to stop all this pain  
(Stop all this pain)

Stuck in the past  
Life moves so fast  
I try but it don't feel the same (Same)  
But it don't feel the same

Stuck in, waiting  
Stop all this pain  
Losing patience but it don't feel the same  
Stuck in, waiting  
Stop all this pain  
I try but it don't feel the same  
But it don't feel the same

But it don't feel the same  
But it don't feel the same

Big dreams, small town, grew up too fast  
Never stopped to look around, why'd I do that?  
I know it isn't safe, I'm looking out the rear view  
Know if I don't stop it, I'ma crash but I still do

And it's funny  
How you took everything right from me  
Say you love, then you leaving me bloody  
Now you been treating like I was nothing

(I just can't take this anymore)

Losing Patience  
I've been waiting  
For something to stop all the pain (Pain)  
(Stop all this pain)

Stuck in the Past  
Life moves so fast  
I try but it don't feel the same  
But it don't feel the same

Stuck in, waiting  
Stop all this pain  
Losing patience but it don't feel the same

Losing patience  
I've been waiting  
For something to stop all the pain (Pain)  
But it don't feel the same

Stuck in the past  
Life moves so fast  
I try but it don't feel the same  
But it don't feel the same

I try but it don't feel the same  
But it don't feel the same
