

# Love Is A Chemical

Illenium

I hear it in the clearing, a whisper in the wind  
I'm fighting with the feeling that'll hold me to the end  
I'm riding on a landslide and I'm halfway off the edge  
'Cause you're the kind of love, the kind of love I won't forget, oh

I'm hanging on, no letting go  
It's all I want, it's all I know  
Keep running it back till I overdose

Your love is a chemical  
It's wired into my bones  
Your love is a chemical  
It's higher than I've ever gone  
It runs right through  
And here I am surrendering  
It's all for you  
And I can feel it happening

Love is a chemical  
Love is a chemical

I hear it in the ocean, and I'm dancing to the sound  
The quiet part of me that always keeps on coming 'round  
It's everywhere I go and it's everywhere I've left  
'Cause you're the kind of love, the kind of love I won't forget, oh

I'm hanging on, no letting go  
It's all I want and it's all I know  
Keep running it back till I overdose

Your love is a chemical  
It's wired into my bones  
Your love is chemical  
It's higher than I've ever gone  
It runs right through  
And here I am surrendering  
It's all for you  
And I can feel it happening

Love is a chemical  
Love is a chemical  
Love is a chemical  
Your love is a chemical
