

Luv Me A Little

Illenium

I'm caught in the way that you talk like you don't want to know
I gave you the world, but you let it go
And now you're away with the night and my days, they feel so long
Darlin', I wait for you comin' home

Trippin' up over words, callin'
And I can't take it anymore
You know that I've heard it all before

So please just say somethin' different
Say we're not finished yet
Tell me I'm weighin' on your mind
Baby, won't you say somethin' different? (Say)
Don't tear me down again (No)
'Cause I've been prayin' that you might
Still love me a little

Woo-ooh
Woo-ooh
Woo-ooh
Still love me a little

Still love me a little
Still love me a little

I hate the words that you say when you're wishin' me well
Like I need some time to be on my own
But it makes me sick to think of you with somebody else
And, darlin', I wait for you comin' home

Trippin' up over words, callin'
And I can't take it anymore
You know that I've heard it all before

So please just say somethin' different
Say we're not finished yet
Tell me I'm weighin' on your mind
Baby, won't you say somethin' different? (Say)
Don't tear me down again (No)
'Cause I've been prayin' that you might
Still love me a little

Still love me a little

Still love me a little
Still love me a little

(Woo-ooh)
Love me a little (Woo-ooh)
(Woo-ooh)
Still love me a little
