

# Nightlight

Illenium

I could run  
I could cry, I could plead  
I could say it's never gonna get any better and leave  
I could throw my hands up  
I could fall to my knees  
I could tell myself I'm strong enough to give all the love that I need

But I still need you  
To ease my load  
Hold me when the lightning strikes  
Lead me home

When I don't know which way is right  
Love me when it's hard, I promise that I'm not  
Leaving from your side  
And when I fall apart, promise in the dark  
You'll be my nightlight, ooh  
You'll be my nightlight

You'll be my nightlight

I could count  
Every time that I've fallen  
Even when I'm in so deep  
It gets hard to see, you're still all in  
I've been lost by myself in the darkness  
Know that I can find my way  
Even on the days when it's hardest

But I still need you  
To ease my load  
Hold me when the lightning strikes  
Lead me home

When I don't know which way is right  
Love me when it's hard, I promise that I'm not  
Leaving from your side  
And when I fall apart, promise in the dark  
You'll be my nightlight, ooh  
You'll be my nightlight

You'll be my nightlight
