

# Not Even Love

Illenium

Chasing down our happiness  
But all we do is make a mess  
I'd rather bear the loneliness  
Than to suffer in silence with you

We're always trying, never realizing  
This fire we're fighting is burning us up  
Yeah, we're surviving, but we're still dying  
No more denying, it's time to give up

'Cause not even love  
Can save us from us  
Not even love  
Can bring back the way it was  
No, not even love  
Not even love  
Not even love  
Can save us from us

Not even love  
No, not even love  
Can save us from us

No, not even love  
Not even love from us  
No, not even love  
Not even love from us

We're always trying, never realizing  
This fire we're fighting is burning us up  
Yeah, we're surviving, but we're still dying  
No more denying, it's time to give up

'Cause not even love  
Can save us from us  
Not even love  
Can bring back the way it was  
No, not even love  
Not even love  
Not even love  
Can save us from us

Love from us  
Love from us  
Love from us  
Love from us

Not even love  
No, not even love  
Can bring back the way it was

No, not even love  
Not even love  
Not even love  
Not even love from us  
No, not even love  
Not even love from us

Not even love  
Not even love from us  
No, not even love  
Not even love from us
