

That's Why

Illenium

Flame still burns
Kerosene
Rise and fall
As I breathe

All these pictures on the screen
It's almost like they're real
And I think that I'd do anything
If it meant I didn't feel
What I feel
And I feel way too much
Truth is no one gives a fuck

That's why
I don't try
That's why
I stay high
I know that you're never gonna hear me
I know that these words'll go to waste
That's why
I don't try

Tried my best
Doors still closed
Love is deaf
For all I know

Sometimes it gets so hard
And I don't wanna fight
And everyday that passes by
Feels like it might
Be my last
And I feel way too much
Truth is no one gives a fuck

That's why
I don't try
That's why
I stay high
I know that you're never gonna hear me
I know that these words'll go to waste
That's why
I don't try

That's why
I don't try
That's why
I stay high

That's why
I don't try
That's why
I stay high
I know that you're never gonna hear me
I know that these words'll go to waste
That's why
I don't try

That's why
I don't try
That's why
I stay high
