

To The Moon

Illenium

Leave this world behind
Be running free
Outta my head
Outta my head
Feel the pulse inside
The need to beat
Out of my chest
Out of my chest

All, all of the little lights
I know there's something out there
I'm away, I'm away
Follow to the moon
Among the satellites
I know there's someone out there
I'm away, I'm away
Follow to the moon
Following you
Fall into view

Follow to the moon
Following you
Follow to the moon
Following you
Follow to the moon
Following you
Follow to the moon

Oh do you read me
Like I read you
Do you feel me
Like I feel you
Oh do you read me
Like I read you
Do you feel me
Like I feel you

All, all of the little lights
I know there's something out there
I'm away, I'm away
Follow to the moon
Among the satellites
I know there's someone out there
I'm away, I'm away
Follow to the moon
Following you
Fall into view

I know there's someone out there
I'm away, I'm away

Follow to the moon
Following you
Follow to the moon
Following you
Follow to the moon
Following you

Follow to the moon
