But this thrill right now
Is way more precious to me

In the end, you're mine, sure you're mine
There's no way you could stop me
Even God's given up completely, I like you 'cause I wanna

You make me higher if I'm funny
Will you laugh? What'll you do?
Are you gonna think I'm weird?
I can just imagine
Oh, cherish my love
If you, if you, if you love me or not
Wanna know how you feel, I'll give it three seconds then it's my way
Your feelings come second, what I decide comes first
Never compromise on my feelings, my feelings
