

Here We Are

ILLUMISHADE

If you hold my heart today I'll show you the way that I feel
If you hold my head I'll say what's buried in my soul so deep
If you hold my hand then we can sketch it in the sand
But dream about the past, you'll never understand

That here we are
We're kin of the reckless crown
We must bear a child of time
Like it was yours and it was mine
We're here for a while
Through all the darkness, all the light
We'll keep faith tonight

If you take a step and say "what hides in these walls won't haunt me"
If you take a leap and slay the demons we can hide so deep
So cut the strings that hold us prisoned in this land
Care about our child and you will understand

That here we are
We're kin of the reckless crown
We must bear a child of time
Like it was yours and it was mine
We're here for a while
Through all the darkness, all the light
We'll keep faith tonight

Here we are
We're kin of the reckless crown
We must bear a child of time
Like it was yours and it was mine

Here we are
We're kin of the reckless crown
We will bear a child of time
And make it yours and make it mine
We're here for a while
Through all the darkness, all the light
We'll keep faith tonight

(Our child of time)
Don't you dream about the past (Our child of time)
(Our child of time)
Don't dream about the past
(Our child of time)
Don't dream about the past
(Our child of time)
We'll keep faith tonight
