

Riptide

ILLUMISHADE

Trace my steps
And follow me to where the riptides roll
All that you hide inside will arise
You'll feel obsession flood your soul

We'll kiss the lips of despair

Let it reach over you
And devour all of your hope
Let it be the moon
(The moon)
To your sun
(Your sun)
You'll feel alive again

Release yourself
And listen duly to the sirens' call
All that you hide will run free
Oh, but the body conquers all

Let it reach over you
And devour all of your hope
Let it be the moon
(The moon)
To your sun
(Your sun)
You'll feel alive again

Let the waters run and let the rivers play
Let it all succumb in tidal disarray
Let it come undone and let it break away
Break away, break away

We'll kiss the face of despair

Let the waters run and let the rivers play
Let it all succumb

Let it reach over you
And devour all of your hope
Let it be the moon
(The moon)
To your sun
(Your sun)
You'll feel alive again

Let the waters run and let the rivers play
(Inside)
Let it all succumb in tides
And you'll embrace the moon
(The moon)
To your sun
(Your sun)
You'll feel alive again
