

Best Mistakes

Illy

I'm faded
Happens way more than it should
I been far from good but good is overrated
And I hate it
But I don't talk about it much
I save all my words for late night conversation

That's why
We're only honest with each other when we're high
Cigarette smoke a good place to hide
Wonder if this all there is sometimes
But it's alright, don't overthink we gon' be fine
Nights don't end at the end of the night
See ya next week, same place, same time, right, where I make my

Best mistakes
Against my better judgement
So like us to rush in
Come what may but maybe these are
Our best mistakes
Either all for nothing
Or we're onto something
And I make all my best mistakes with you
I make all my best mistakes with you
Yeah I make all my best mistakes

Cause if I'm being real
Take a whole lot of liquor just to be myself
Nearly, never sober when I leave my shell
Know it's, kinda tragic but it really help
So here's to the lost causes, misunderstood
Have the whole world in our hands if we could
But my rights on a cup, left knocking on wood
When it all go bad least the stories are good

That's why
We're only honest with each other when we're high
Cigarette smoke a good place to hide
Wonder if this all there is sometimes
But it's alright, don't overthink we gon' be fine
Nights don't end at the end of the night
And ain't no bad thoughts when I'm out of my mind, where I make my

Best mistakes
Against my better judgement
So like us to rush in
Come what may but maybe these are
Our best mistakes
Either all for nothing
Or we're onto something
And I make all my best mistakes with you
I make all my best mistakes with you
I make all my best mistakes with you
I make all my best mistakes with you
Yeah I make all my best mistakes

Everything just feels like just yesterday

And tomorrow's never far away
Memories still waiting to be made
So, let's make our best mistakes, here's to our best mistakes

That's why
We're only honest with each other when we're high
Cigarette smoke a good place to hide
Wonder if this all there is sometimes
But it's alright, don't overthink we gon' be fine
Nights don't end at the end of the night
See ya next week, same place, same time, right, where I make my

Best mistakes
Against my better judgement
So like us to rush in
Come what may but maybe these are
Our best mistakes
Either all for nothing
Or we're onto something
And I make all my best mistakes with you
I make all my best mistakes with you
I make all my best mistakes with you
I make all my best mistakes with you
Yeah I make all my best mistakes
