

Closer

Illy

Call me when you need me
Know I'll never be too far away
Only love me when I'm leaving
Only hate the way you never stay
When you kill me with every touch, just
Give me life, so I can die again
And we'll fall with our eyes shut
Into the eye of the hurricane

And if we're going down
Watch us dance in the flames
Out where we've lost count
All of our mistakes, yeah I
Wildest thoughts drag me under
Darker sides flood my brain
I'm an animal
Break me out your cage, then come and

Cut me open
'Til I feel you in my veins
Bring me closer, bring me closer
Leave me broken
Give me ecstasy and pain
When its over
Let me go again

Down on my knees for you, I'm a fiend for you, feel the words before you speak
Dig your nails and your teeth in too, I would bleed for you, let you see what lies beneath
I know god is a woman when you undress
100 problems you made it one less
And I'm past obsessed, breathe life in my chest, then come and

Cut me open
'Til I feel you in my veins
Bring me closer, bring me closer
Leave me broken
Give me ecstasy and pain
When its over
Let me go again

And if we're going down
Watch us dance in the flames
Out where we've lost count
All of our mistakes, and
Wildest thoughts drag me under
Darker sides flood my brain
I'm an animal
Break me out your cage, then come and

Cut me open
'Til I feel you in my veins
Bring me closer, bring me closer
Leave me broken
Give me ecstasy and pain
When its over

Let me go again
