

## Codes

Illy

Playing slow suicide, yeah, head still ringing from the last round  
If we don't fit in watch a motherfucker stand out  
Going brrr brrr brrr, hit the dealer 'til it rang out  
We just don't care, the big vibes with the bad crowds

And I can't really feel my face  
Caught up in the thrill of the chase  
Even if it kill we ok  
None of this is real anyway  
Weigh in on phenomenons  
Whole show a pre-game for the kick on  
Give me life, make ya look  
Never seen a lost cause do it this good, like

Like I got a thousand lives  
Her cheat codes got me hypnotised  
Every night I die  
Then she bring me back to life  
Like I got a thousand lives  
Her cheat codes got me hypnotised  
Every night I die  
Then she bring me back to life

Room full of smiles knowing damn well they ain't never had love  
In the bathroom trying to nosebleed out all the bad blood  
You know you're doing good, when all the Veuve bottle pop in magnum  
We do it just to do it, full tilt 'til the phantom  
And dip, took a second to adjust but I  
Did, new normal it's a lot, when it  
Hit, trips in the eye drops, get a glimpse  
Life move fast, careful when you blink  
She ask is it worth the risk  
Yeah more or less, I playing at life like I pressed  
Right X, right left right R1 right left, X triangle, bless, I'm on one

Like I got a thousand lives  
Her cheat codes got me hypnotised  
Every night I die  
Then she bring me back to life  
Like I got a thousand lives  
Her cheat codes got me hypnotised  
Every night I die  
Then she bring me back to life

One two three four steps ahead  
We only playing if we win though  
We only playing if we win though  
One two three four steps ahead  
We only playing if we win though  
We only playing if we win though
