

Good Night Good Luck

Illy

So what's a bad drink? I don't know it
To the bottom of the bottle
Water's warm, dip your toe in yeah
Tomorrow's problem's not for show
And if I got it I'mma blow it
We don't need it where we going, nah
Ah yeah them boys love to talk
Good for them I guess, they can bark at the walls
Not for me, no sir, I just came here to ball
From when the clock strikes midnight, to 6 in the mornin' baby

I been on one
Riding dirty with a bad one, shot gun
When we pull up we'll be rollin', red hot
Jump in, and wish me good night, good luck
Good night, good luck
I been on one
Riding dirty with a bad one, shot gun
When we pull up we'll be rollin', red hot
Jump in, and tell em good night, good luck
Good night, good luck

It's a mad ting
Love to but I can't change, who am I kiddin'
Fast lane's all I know
Fuck what your friends say
We all get our bad days
But it's all fine if our nights all glow

And all these dark thoughts start circling in our heads
They're nowhere near us when we're at our best
World's alright, with you to my left
Swear you ain't seen nothing yet
Ready set baby

I been on one
Riding dirty with a bad one, shot gun
When we pull up we'll be rollin', red hot
Jump in, oh wish me good night, good luck
Good night, good luck
I been on one
Riding dirty with a bad one, shot gun
When we pull up we'll be rollin', red hot
Jump in, and tell em good night, good luck
Good night, good luck

Cause I been on one
Riding dirty with a bad one, shot gun
When we pull up we'll be rollin', red hot
Jump in, oh wish me good night, good luck
Good night, good luck
I been on one
Riding dirty with a bad one, shot gun
When we pull up we'll be rollin', red hot
Jump in, oh wish me good night, good luck
Good night, good luck
I been on one

Keep em coming til we're passed out or locked up
Some might second guess but not me, not once
Jump in, and tell em good night, good luck
Good night, good luck
