

Lean On Me

Illy

Yeah yeah

Dealing with some things
You don't need to say it, I can see
Tell me everything
Tell me nothing, either good with me
I'm on your side
We can sit in silence, we can speak
For all the times
You been there for me and oh I know, I know, I know
Take that wherever I go, I go, I go
A million miles from home, from home, from home
Never far from my phone, FaceTime, other side of the globe
Yeah, yeah, it can't always be perfect
And there'll be times you don't know if it's worth it
But when it feel like you on your own
I'll be there right before you know, so just

Lean on me
When the world all fall to pieces
Don't overthink your reasons
When it brings you to your knees, just
Lean on me
Hold on tight and don't let go
Every high come with a low
Long as you always know that you can
Lean on me
Lean on me
Long as you always know that you can
Lean on me

Remember when it's hard, just part of the ride
We all gotta go through this sometimes
Hold on for your life, yeah close your eyes
Fingers in your ears like Lalala
So you know, you know, you know
Take that wherever you go, you go, you go
A million miles from home, from home, from home
Trust when I say so, babe, heartache's a part of the show
But it fades, it fades, it fades
Yesterday ain't today, today, today
But when it get in your way, your way, your way, it's ok
When it's all about to break just

Lean on me
When the world all fall to pieces
Don't overthink your reasons
When it brings you to your knees, just
Lean on me
Hold on tight and don't let go
Every high come with a low
Long as you always know that you can
Lean on me
Lean on me
Long as you always know that you can
Lean on me

(As long as you always know)
(Long as you always)

No lane, we can make one (yeah)
Find a way where there ain't none (yeah)
Never too much to take on (yeah)
There ain't a story we can't write
Red line to the borderline
All the pain, leave it all behind
I know it's hard sometimes
But I'll be right beside, so

Lean on me
When the world all fall to pieces
Don't overthink your reasons
When it brings you to your knees, just
Lean on me
Hold on tight and don't let go
Every high come with a low
Long as you always know that you can
Lean on me
No matter what fell apart, you can always
Lean on me
No matter what
Long as you always know that you can
Lean on me
No matter what fell apart, you can always
Lean on me
No matter what
Long as you always know that you can
Lean on me
