

# Looks Could Kill

Illy

You see it in their eyes, no need to say it  
When you know, you know  
And we just drive them wild, oh man  
Those animals get territorial  
I don't really get it  
It's not for me to work out, I don't really sweat it  
I go diabetic kicking sweet shit, Venice with a flow  
All thirty in a circle, hands off the windows  
Tell 'em no, they starin' inside  
Oh they mad, clear as daylight  
And whether gon' run with or get run by  
Just gotta go and talk till they all tongue-tied  
Man, hell of a thing to get used ta  
Fuck I will live, tell the truth man, sucks to be you  
When you see where they're coming from can't blame the view  
If I was them I'd hate us too  
Walk in the room

It's all eyes on us  
If looks could kill  
We light 'em up  
Come get your thrills  
It's better when you feel it  
It's better when it's real  
If looks could kill  
If looks could

Take a photo, make it last longer  
Like what more can they ask from ya  
Standing like a statue in frame  
Make all the boys want to tattoo your name  
I'm well drilled in flattery acts  
Red carpet to front, red [?] back  
But oh man that e-n-v-y gives me life  
Gotta say thank you for that, so thank you for that  
And that mood could change  
Any second I know, I know  
So it's in one ear  
Out the other it goes, shit  
Who knows, this fairtale  
Might not end well, oh well  
How far these angels fell  
But take a look around it ain't hard to tell

That it's all eyes on us  
If looks could kill  
We light 'em up  
Come get your thrills  
It's better when you feel it  
It's better when it's real  
If looks could kill  
If looks could

And it's all eyes  
On us (They on us)  
If looks could kill (The others)  
If looks could kill [?]

And it's all eyes  
On us (They on us)  
If looks could kill (The others)  
If looks could kill (They on us)

And I don't get mad at that  
I just don't put any energy on it  
I know we the focus  
I live for these moments, I swear it, I promise  
But never caught up in that  
I'm looking beyond it  
And apart from the lights there's nothing in sight  
But we're used to it

'Cause it's all eyes on us  
If looks could kill  
We light 'em up  
Come get your thrills  
It's better when you feel it  
It's better when it's real  
If looks could kill  
If looks could

And it's all eyes  
On us (They on us)  
If looks could kill (The others)  
If looks could kill [?]  
And it's all eyes  
On us (They on us)  
If looks could kill (The others)  
If looks could kill (They on us)
