

## Loose Ends

Illy

CDs in their covers all the tapes thrown out  
Yeah we made mistakes I lost count, last count  
Summer nearly over it's already dark now  
Somewhere on the way I guess we grew up  
Every time I drive past your old place now  
Think of all your dreams that we'd talk about  
Wonder how your big plans all worked out  
Hope the future was good to ya

We blink it's gone  
Look around, we ain't kids no more  
Never be what it was before, no no  
How it go, you can never go home  
Keep moving forward  
Let the fork in the road change course  
Always be a piece of me that's yours, oh oh  
I don't know much, but I know that

Some loose ends don't get tied up  
Still seem real enough to touch  
Made my peace with letting go  
All those things we don't need to know because  
Some loose ends don't get tied up

Dear summer, I was right there  
Window down, Jeezy floating through the night air  
Didn't know where we headed but I'll drive there  
Must have seemed something like your parents nightmares, ha  
Hurricane youth saved patience for the calm  
Loved your head to your toes to the bracelets on your arm  
Swore we'd ride together, burn bright forever  
Through highs and lows, through wins and lessons  
With one hand on the wheel and one on your thigh  
Still seems real on nights like tonight  
Could reach out and touch you, hell of a ride  
The walk in my life to the long kiss goodbye  
The hurt when we know it can't work  
Be a whole lot of love but there's only one first  
There's only one you, there's only one me  
But it's only one life so it's how it's gotta be

We blink it's gone  
Look around, we ain't kids no more  
Never be what it was before, no no  
How it go, you can never go home  
Keep moving forward  
Let the fork in the road change course  
Always be a piece of me that's yours, oh oh  
I don't know much, but I know that

Some loose ends don't get tied up  
Still seem real enough to touch  
Made my peace with letting go  
All those things we don't need to know because  
Some loose ends don't get tied up

Don't get tied oh don't get tied up

Won't get fired oh won't get fired up  
Every breath was a memory in my lungs  
Every breath was another day young and dumb

Don't get tied oh don't get tied up  
Won't get fired oh won't get fired up  
Every breath was a memory in my lungs  
Every breath was another day young and dumb

Some loose ends don't get tied up  
Still seem real enough to touch  
Made my peace with letting go  
All those things we don't need to know because  
Some loose ends don't get tied up

Some loose ends don't get tied up  
Still seem real enough to touch  
Made my peace with letting go  
All those things we don't need to know because  
Some loose ends don't get tied up
