

Race to the Bottom

Illy

I feel like I'm in a cage
Tension I could cut with a blade
But how the fuck you s'posed to escape
When you the one who's stood in your way
When you the one stood in your way and

Maybe I just spend too long alone
The silence is a home away from home
Thought that I could handle this my own
I guess I was wrong, I guess I was wrong

I feel like I'm seeing ghosts
Hiding away from my thoughts
Drowning out the pain 'til I'm numb
And it doesn't feel real anymore

And I race it
I race it
I race to the bottom
And I race it
I race it
I race to the bottom

Put the game face on point it at the crowd
While everything inside come crashing down
So we're like break out the drinks, we're partying
'Til the voices in my head don't say a thing
They just waiting 'til no one's around

Maybe I just spend too long alone
The silence is a home away from home
Thought that I could handle this my own
I guess I was wrong, I guess I was wrong

I feel like I'm seeing ghosts
Hiding away from my thoughts
Drowning out the pain 'til I'm numb
And it doesn't feel real anymore

And I race it
I race it
I race to the bottom
And I race it
I race it
I race to the bottom

And down and down we go
And down and down we go, yeah
And down and down we go, yeah
Straight to the bottom

And down and down we go
And down and down we go, yeah
And down and down we go, yeah
Straight to the bottom

Sometimes saving me from my own self

Sometimes feels like drawing blood from stone
Wonder who would hear me ask for help
Wonder who would miss me when I'm gone

I feel like I'm seeing ghosts
Hiding away from my thoughts
Drowning out the pain 'til I'm numb
And it doesn't feel real anymore

And I race it
I race it
I race to the bottom
And I race it
I race it
I race to the bottom

And down and down we go
And down and down we go, yeah
And down and down we go, yeah
Straight to the bottom

And down and down we go
And down and down we go, yeah
And down and down we go, yeah
Straight to the bottom
