

## Then What

Illy

Big man big man walk it off  
Everybody talk it up  
Off the record, off the cuff  
Yada yada, bla bla bla  
Now look, I'm not here to hear you talk  
You keep going you get brushed  
I'm Shania to it all  
That shit don't impress me much  
Witcha loudmouth  
Running all around town  
Can we turn the sound down  
Boom chika wow wow  
Wish you could bite your tongue til it's numb  
But Imma let you finish  
And when you finish we're done

Ok, but then what  
Is that really all you got  
Ok, but then what  
I don't like to say this much  
Ok, but then what  
Cause all that talk is cheap  
Ok, you got plans  
That just sound like talk to me

Ok, but then what  
Is that really all you got  
Ok, but then what  
I don't like to say this much  
Ok, but then what  
Cause all that talk is cheap  
Ok, you got plans  
That just sound like talk to me

Oh my god, I need a minute  
Can we pick the speed up with it  
You don't need to be specific  
Fingers pressing the ignition vroom  
Race you to your point  
Last to get there get ignored  
Hate to disappoint, yeah  
But hate being here more  
So uh, tell me more, nah I'm kidding  
I'm struggling to listen and keep the indifference hidden, oh man  
I knew this a bad idea from the start  
So Imma let you finish  
Or actually maybe nah

Ok, but then what  
Is that really all you got  
Ok, but then what  
I don't like to say this much  
Ok, but then what  
Cause all that talk is cheap  
Ok, you got plans  
That just sound like talk to me

Ok, but then what  
Is that really all you got  
Ok, but then what  
I don't like to say this much  
Ok, but then what  
Cause all that talk is cheap  
Ok, you got plans  
That just sound like talk to me

Hold up man  
Why we doing this again  
Shoulda learnt my lesson, shoulda turned and ran  
And it's just my luck  
That I'm still here stuck  
When we're way past done, could we move this on, like  
Hold up man  
Why we doing this again  
Got real world problems, got real good friends  
And we all say nah  
We don't care that much  
But you still won't stop  
We like oh my god

Ok, but then what  
Is that really all you got  
Ok, but then what  
I don't like to say this much  
Ok, but then what  
Cause all that talk is cheap  
Ok, you got plans  
That just sound like talk to me

Ok, but then what  
Is that really all you got  
Ok, but then what  
I don't like to say this much  
Ok, but then what  
Cause all that talk is cheap  
Ok, you got plans  
That just sound like talk to me

Ok, but then what  
Ok, but then what  
Ok, but then what  
Ok, you got plans  
That just sound like talk to me, man
