

You Don't Like Me

Illy

Oi
Woke up face down
Little blurry on the details
I bought a ticket
Took a derail
An outsider to an inside joke with myself
Nothin' to laugh about
Renaissance man fast living
Caught up in a rat race
A college drop out let the pack chase
Gritted teeth in a smile
Say they wish me well
I heard a different story

Ah ah
Ain't out the usual
Ah ah
The feelings mutual
Ah ah
I hear a clock going tick tock tick

You don't like me I don't either
And I don't know what to explain yeah
Rev my motor Mona Lisa
But beauty never been a point in all that pain
I got a leash on all the demons
And they can't wait to break the chain yeah
Got a vibe don't need a reason
Don't need a cause
Don't need a change
Oh wait no way
You don't like me I don't either
Ah ah
Nah you don't like me I don't either

Woy oi oi oi
Real slice of shit
But I scrub up well
Look around
How the fuck we 'sposed to love ourselves
When it's all so ugly
Make me sore to my tummy
All these posters got me
Click my tongue like nahhhh

One by one fail the purity test
Rep fits snug like a bullet proof vest
One door on the door
One foot on their neck
Be like lights out night night
Put it to bed
Well ok

Ah ah
Spare me your sympathies
Ah ah
You got it worse than me

Ah ah

At least I know myself enough to know my flaws

You don't like me I don't either

And I don't know what to explain yeah

We're at my Mona Mona Lisa

But beauty never been a point in all that pain

I got a leash on all the demons

And they can't wait to break the chain yeah

I got it bad don't need a reason

Don't need a cause

Don't need a change

Oh wait no way

You don't like me I don't either

Ah ah

Now you don't like me I don't either

Ah ah
