

You Lying

Illy

Yeah I'm like hmm, whats up, why so serious
Look where we end up when we base this off appearances
I'm clicking my tongue, mm mm, look what you done
Oh they love to keep it real, huh, real fucking dumb
Oh you the man, you a boss, you a king, you a goat
Cut that shit out that's a nope, you ain't him, you ain't know?
Nah they clearly don't, soon as their mouths open, I'm like "here we go"
Another bum saying they shits dope, hmm but is it tho?

Hmm, that don't seem real enough
Hmm, I don't be buying it
What they be selling us
But they keep trying it
So I keep telling em
Look here bitch that bullshit we keep smelling it

I keep on
Hearing all these stories about
You and your man, yo
That's cool but you lying
That's cool but you lying
You ain't really living how you be on the gram, yo
That's cool but you lying
That's cool but you lying
I'm not tryna catch you with your pants on fire
Shut your motor mouth pump the brakes screech tyres
Cause everything you sayings like here we go again yo
That's cool but you lying
That's cool but you lying

Whole lotta walk, just don't match that talk
Itty bitty bite lotta bark
No fuss, no fear no fucks given
No scab, no scar
No shit, I'ma throw my phone out the drivers side window of a speeding car
Cause I start scrolling, there they are
We're like yeah nahhhhh
Fuck an ego I grind like my first day on the job
Cause who the fuck putting work in, if everybody's the boss?
Real ones all love, ain't shit aiming at you
The only dudes in they feelings, hear this and hate that it's true, we're saying ooooo

Hmm, that don't seem real enough
Hmm, I don't be buying it
What they be selling us
But they keep trying it
So I keep telling em
Look here bitch that bullshit we keep smelling it

I keep on
Hearing all these stories about
You and your man, yo
That's cool but you lying
That's cool but you lying
You ain't really living how you be on the gram, yo
That's cool but you lying

That's cool but you lying
I'm not tryna catch you with your pants on fire
Shut your motor mouth pump the brakes screech tyres

That's cool but you lying
