

## Syrup In My Soda

iLoveMakonnen

I keep syrup in my soda  
I keep syrup in my soda  
I keep syrup in my soda  
I keep syrup in my soda

I keep syrup in my soda like Jody Highroller  
I keep syrup in my soda like Jody Highroller  
I keep syrup in my soda [x3]

My whole life I thought I wanna live a dream  
I hit California with Sunbeams, the sun ring  
My diamonds floss, I would toss  
I catch a pass like Randy Moss  
Who's the boss? I came through with the wood wheel  
Diamond grill, my name known in Nashville  
My cash spill, I jumped out in a Jag still  
Your bitch gave me a headache, I need an Advil

Tell me what's the hold up?  
You know I like to roll up  
All around, all around  
Drinking in the town now  
Another one going down  
You know we gone pass it around  
God, it's feeling slow now  
Cause I keep one on deck  
I don't wanna hear your shit  
About who got next  
We out here toastin' to it
