

Loving You

lls

Journey is a long and,
The journey is a wild man.
But I don't care,
I'll take the chance.
I know there'd be rough times,
I know there'd be tough times.
But I don't care my
Love is here,
So I stay.

Loving You,
It don't come easy,
It just something that just gotta do (something that just gotta do),
Loving you,
It don't come easy,
It just something that just gotta do.

Doesn't matter if we ???? up some downs (is it downs),
And doesn't matter if we're real up we have found.
And doesn't matter when we have a little fight,
And doesn't matter 'cause we know that love is right.

Loving You, (Loving You)
It don't come easy,
It just something that just gotta do (something that just gotta do),
Loving you,
It don't come easy,
It just something that just gotta do.

I'll be your rap babe,
You sailin' rap babe,
You should a the lean on,
With a lone,
I'll know it'll be bright days,
And now'll be right there,
Shining bright me,
'Cause I'm loving you.

Loving You,
It don't come easy,
It just something that just gotta do (something that just gotta do),
Loving you,
It don't come easy,
It just something that just gotta do.

I know a it's something,
And I know a it's gotta do.
