

# Flow

Ilse DeLange

Take time, won't you let it slide  
Won't you let it slide, let it go  
Been runnin' 'round and up that hill  
What's on the other side, you need to know  
Some days make you feel like crying  
Some days make you feel alone  
Tryna find some peace of mind in the middle of a storm  
Just a little peace of mind in the middle of a storm

We've got a million different answers  
And we'll never know, never know  
When your world spins too fast, then  
Just take it slow, take it slow  
You've gotta hold on to love  
Sometimes you gotta let it go, let it go  
Let the river run, just let it flow, let it flow  
Let the river run, just let it flow, let it flow

Ooh-oh, ooh-oh, ooh-oooh  
Ooh-oh, ooh-oh, ooh-oooh

Rain down, let it wash away  
Let it wash away the pain  
You're trying to move the clouds  
But the clouds won't go away  
Just because you feel so tired  
Just because you feel so wrong  
Doesn't mean it won't get better  
Better days will come  
You just gotta trust that better, better days will come

We've got a million different answers  
And we'll never know, never know  
When your world spins too fast, then  
Just take it slow, take it slow  
You've gotta hold on to love  
Sometimes you gotta let it go, let it go  
Let the river run, just let it flow, let it flow  
Let the river run, just let it flow, let it flow

Sometimes you're on the run (Ooh-oh, ooh-oh, ooh-oooh)  
That way you come undone (Ooh-oh, ooh-oh, ooh-oooh)  
Doesn't mean it won't get better (Ooh-oh, ooh-oh, ooh-oooh)  
Better days will come (Ooh-oh, ooh-oh, ooh-oooh)  
You just gotta trust that better, better days will come

You've got a million different answers  
And we'll never know, never know  
When your world spins too fast, then  
Just take it slow, take it slow  
You've gotta hold on to love  
Sometimes you gotta let it go, let it go  
Let the river run, just let it flow, let it flow  
Let the river run, just let it flow, let it flow
