

Peaceful In Mine

Ilse DeLange

When the sun comes up
On another day
And the sidewalk shines
And the streetlights sway
In the autumn wind
Hard, like the times
I`ll dream of yours
Peaceful in mine

And when the stars
Fall out of sight
A flame will burn
In a frozen night
With a simple wish
In these violent times
To dream of yours
Peaceful in mine

Where we walk down that road again
Innocent strangers, eternal friends
In a world of our very own
Far from space and time
With yours, peaceful in mine

Where we walk down that road again
Innocent strangers, eternal friends
In a world of our very own
Far from space and time
With yours, peaceful in mine

So wait for me
Up there tonight
And we`ll dance on
Till the morning light
Leaving all but faith behind
And yours peaceful in mind

With a simple wish in these crazy times
And yours, peaceful in mine
