

# We Are Diamonds

Ilse DeLange

Gold and purple sky  
Will show us how and where to find the night  
We got a chance to go  
So let's go, oh let's go

Leave your sleepy bed  
Come on we'll trade our dreams for  
What's ahead  
Or we will never know  
Never know, never know

Hey, we're chasing lights  
We're shining bright  
We are diamonds  
Hey, we're chasing lights  
We're shining bright  
We are diamonds

Static in the dark  
Will never silence every beating heart  
I wanna feel the sound  
Feel the sound, feel the sound

Hunger on my skin  
I wanna be the things I've never been  
I'm gonna lay it down  
Lay it down, lay it down

Hey, we're chasing lights

We're shining bright  
We are diamonds  
Hey, we're chasing lights  
We're shining bright  
We are diamonds

All those shining lights, I gotta see em  
All those burning brights I gotta feel em  
All those shining lights, all those shining lights

All those shining lights, I gotta see em  
All those burning brights I gotta feel em  
All those shining lights, all those shining lights

Hey, we're chasing lights  
We're shining bright  
We are diamonds  
Hey, we're chasing lights  
We're shining bright  
We are diamonds

Hey, we're chasing lights  
We're shining bright  
We are diamonds
